

## SUSTAINABILITY POLICY

*Truman Adventure* we are constantly compromised in having a harmonic equilibrium with our environment and the tours we operate. Our professional principles give us the knowledge and the perfect balance between environmental sustainability and efficient and sustainability uses of our resources; with *Truman Adventure* our guests can enjoy natural richness of our Colombian territory that protect in their six eco-regions, that make us a tour agency conscious and compromise in generate a sustainable experience to guarantee a trip that connect nature, adventure, wellness, and conservation in just one journey.

Having in mind that tourism it's a special activity, that involves people where we develop this activity, we work together with communities to preserve their cultural identity, promoting economic development thar reduce poverty index. We recognize that our children's and teenagers are a national treasure, that we protect from sexual and work exploitation, requesting to our clients, suppliers, and collaborators to reject any of these behaviors.

We will give compliment with actual legal requirements in terms of sustainability, and we will put the resources that are necessities to fulfil of our sustainability management system looking for continuous improvement and innovation.

In *Truman Adventure* we have in mind that working together and continuously improving our process we can guarantee an efficient service, kind, customize and liable, that allow us to innovate and develop our company, preventing damages and deteriorating health of our collaborators and meeting stakeholder expectations.
